KEY SKILLS

Front End: Angular, React, TypeScript, JavaScript, Bootstrap, Tailwind, HTML, CSS

Back End: Java, Spring Boot, SQL, RESTful APIs, Python, Microsoft Access

Tools: Figma, Git, VS Code, IntelliJ, MySQL, Microsoft Office Suite, Excel VBA

WORK EXPERIENCE

Business Data Analyst & Developer (Python, SQL & Access)

PBM - CVS Specialty Health, Buffalo Grove, IL | October 2023 – Present

- Leveraged Python (Tkinter, Pandas) to create data analysis Apps that automated repetitive tasks, increasing efficiency and accuracy in data processing.
- Developed SQL queries to pull and compile data from multiple databases and tables, producing actionable reports and analytics for strategic decision-making.
- Built and maintained Microsoft Access databases to manage formulary data, ensuring data integrity and ease of access for pharmacy teams.
- Presented complex data findings to stakeholders through visual reports and dashboards, facilitating data-driven decision-making across departments

Freelance Web Developer

Technologies: Angular, React, JavaScript | June 2023 - Present

- Translated client requirements into responsive, SEO-optimized web applications using Angular and React, delivering high-quality, interactive, and visually appealing designs.
- Built dynamic user interfaces with reusable components, reducing development time and ensuring consistency across pages.
- Integrated third-party APIs and tools to enhance website functionality, such as analytics, payment gateways, or content management features.
- Conducted rigorous testing and debugging processes, identifying and resolving performance issues to improve load times and user experience.
- Collaborated with designers and clients to achieve cohesive layouts, provided training and technical support to enable clients to manage content independently, and followed up with maintenance services for ongoing performance optimization.

TECHNICAL PROJECTS

Lee Manor Web Application

Technologies: ReactJS, JavaScript, Bootstrap

- Developed a responsive web app for Lee Manor to manage resident info and scheduling.
- Integrated database and third-party APIs for mapping and accessibility features.

Trading Card E-commerce Store

Technologies: Angular, Java, Spring Boot, SQL, TypeScript

- Built a full-stack e-commerce site for trading cards, with Angular frontend, Spring Boot backend, and MySQL database.
- Integrated Stripe for payments and Okta for user authentication.

Pharmacy Medication Calculator

Technologies: Angular, TypeScript, VBA

- Developed a tool for pharmacy technicians, originally in VBA, then rebuilt in Angular.
- Streamlined medication entry, improving speed and accuracy.

EDUCATION

Bachelor of Science in Information Technology

Capella University

Relevant Coursework: Java Programming, Database Development, Software Architecture, Web Development, Network Architecture, User Experience
